Reading

1 What do you eat for breakfast?

2 Listen and read.  09

What do you like for breakfast?

We asked four children about their favourite breakfast foods.

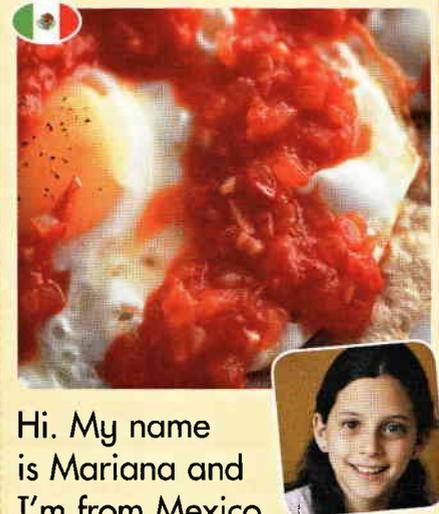

Hi, I'm Abdel from Egypt. I sometimes eat bread with jam or cheese. But usually I eat *fuul* and bread for breakfast. *Fuul* is mashed beans. It's great with olive oil and flat bread. I sometimes have an egg with it, too.

My name's Pete. I'm from Scotland. For breakfast, I usually have a bowl of cereal with milk, and then toast with butter. We have lots of different cereals at home, but my favourite is cornflakes. I don't have a very big breakfast because I eat lunch early at school.

Hi, everyone. I'm Huong and I come from Vietnam. For breakfast, I usually have noodle soup. My grandma makes it every morning. Sometimes I have *xoi*. These are balls of rice with beans. They are wrapped in coconut leaves and are really yummy.

Hi. My name is Mariana and I'm from Mexico. My favourite breakfast is *huevos rancheros*: eggs cooked in tomato and chilli sauce. Under the eggs is a tortilla, which is a corn pancake. I always eat a big breakfast because we don't have lunch at school.

3 Underline these words in the text. Guess their meanings and then check them in the Workbook 4 Dictionary (page 116).

I run to the window,
Hear the sound of the beat.
Everyone is clapping
Outside in the street.

I hear the drums
That thump and bang.
I look at the cymbals,
Sparkling as they clang.

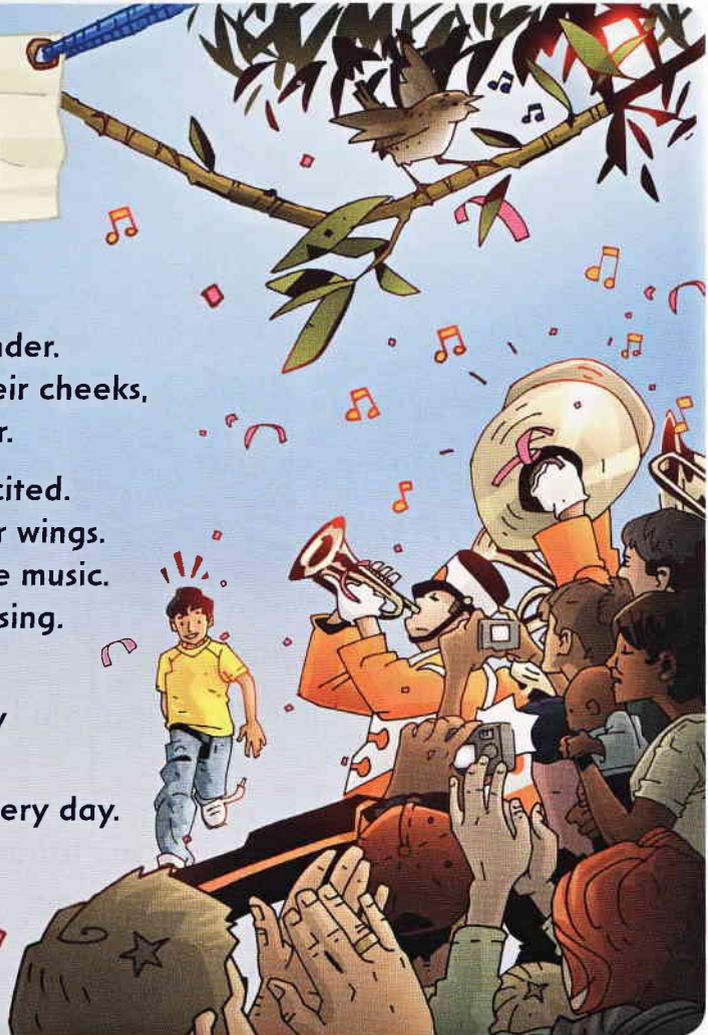

I run outside
And hear the sound
Of people tapping
Their feet on the ground.

The band plays slowly,
One, two, three.
And I can feel the rhythm
All around me.

The trumpets honk
And sound like thunder.
The players puff their cheeks,
As I listen in wonder.

The birds are so excited.
I see them flap their wings.
They join in with the music.
I can hear them all sing.

When I grow up,
I really want to play

Dinosaur data

Dinosaurs lived on Earth for millions of years.

Scientists study dinosaur bones to find out how they lived and what they looked like.

There were more than 700 different types of dinosaur! Some dinosaurs ate plants and others ate meat. Some walked on two legs and others walked on four legs. Some could fly and others lived in the sea. We know they were all different but no one knows what colour or pattern they were. This is because there is no dinosaur skin left to study.

Dinosaurs disappeared 65 million years ago. Why was this? Some scientists think that a large rock called an asteroid fell to Earth from space. This made the Earth much colder and there was no longer any food for the dinosaurs to eat.

The most famous dinosaur is the T-Rex (Tyrannosaurus Rex). It was 14 metres long and 5.5m high: bigger than a house! Its strong tail helped it move quickly. But no one knows how fast it could run. Its teeth were 36 centimetres long and it ate meat. You can see T-Rex skeletons in some museums.

Extensive reading: fossils

1 Describe the pictures. What do you know about fossils?

2 Read.

What are fossils?

Fossils are the bones or shells of animals that died a very long time ago. You can find fossils in rocks. You can see a pattern which shows the shape of the animal. Some fossils are 500 million years old!

Why are fossils important?

Fossils tell us about the past. We can learn about types of rock and we can learn about animals that lived a very long time ago.

Where can you find fossils?

You can find fossils in many places. You can find them on mountains and in seas. You can find them in deserts and on beaches. You can find them under the ground. Sometimes people find them when they are digging up roads, or building houses. Sometimes they find them on beaches after very big storms at sea. This is because the waves wash the fossils onto the sand.

How can I see a fossil?

You can visit museums to look at fossils, or you can buy them in special fossil shops. You can also look for your own fossils, especially on the beach. Sometimes you can find them on the sand or in the rocks. Sometimes you need tools to cut them out of the rocks. You can also go on a special fossil hunting trip with a scientist called a geologist.

A geologist knows all about fossils and rocks. He or she can show you the best places to find them.

An ammonite was a sea creature which had a hard shell. This animal lived in the sea about 400 million years ago. Today, you can easily find ammonites in the rocks in the English seaside town of Lyme Regis.

This is a fossil of an ancient whale. Scientists found it in the Western Desert in Egypt. Scientists also find turtle and shark fossils here. This is because millions of years ago the Western desert was a sea.

The Story Of Mary Anning

Mary Anning was born in 1799 in a small English seaside town called Lyme Regis. There were many fossils in Lyme Regis. Mary's father looked for them and sold them in his shop. People often visited the shop. They liked the fossils because they were pretty and interesting.

In those days, many children didn't go to school. But Mary went to school and she learnt to read and write very well. Then, in 1810, Mary's father died. Mary was only eleven years old. The family needed money, so Mary and her brother worked in the shop. Mary looked for fossils on the beach every day. She cut them from the rock and cleaned them before selling them in the shop. She was very good at this.

One day, Mary and her brother found some strange-looking bones in the rocks. The children didn't know what they were. Mary took them back to the shop and she saw that they were bones from a very large animal. She cleaned them and looked after them, but she didn't sell them.

Eventually, some scientists in London heard about the bones. They visited Mary at her shop and looked at the bones. They didn't know what the animal was, but they thought it was a sea dinosaur. Today we call this dinosaur an *ichthyosaur*, which means fish lizard. This dinosaur disappeared about 90 million years ago.

After this, Mary found many other amazing fossils on the beach at Lyme Regis. She found the very first *plesiosaur*, another type of sea dinosaur. Mary learnt a lot about fossils and dinosaurs and became very famous in Lyme Regis and London.

Today Lyme Regis is a great place for fossil hunting. The Lyme Regis Museum has a special Mary Anning day every year to celebrate her life and work with fossils.

1 What do you know about basketball?

2 Listen and read.  30

Can you jump really high and bounce a ball really fast? Then basketball may be the sport for you!

Basketball started in 1891 in Canada. The very cold winters meant pupils needed a sport to play inside where it was warm. So, a PE teacher called James Naismith invented a new sport: basketball.

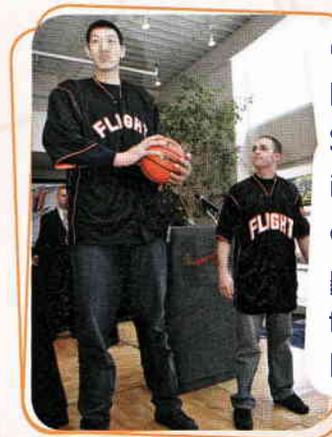

Naismith put fruit baskets onto balconies at each end of the court. The players scored points by throwing balls into the baskets. To get the balls down again, the players had to climb a ladder. So, Naismith made a hole in the bottom of each basket for the ball to fall through.

People continued to play basketball in this way until 1906, when basketball hoops and nets were invented.

With time, basketball spread across the United States and then the whole world. Today people play basketball outdoors, too, and you can often find basketball hoops in parks and gardens.

So try it! You just need a ball, some friends and a basketball hoop. It's a great way to keep fit and healthy.

One of the tallest basketball players is Sun Ming Ming, who is 236cm tall. But you don't have to be tall to play basketball. A very famous player, Muggsy Bogues, is only 160cm.

1 Have you seen any shadow puppet theatre?

2 Listen and read.  37

Shadow puppet theatre

Shadow puppet theatres first started in China thousands of years ago. But shadow puppet theatre is still popular today in many parts of the world. Shadow puppets tell people about important events and describe traditional stories. Nowadays there are some new and modern stories, too.

The puppets are usually made from animal skins. These shadow puppets are camel skin and they come from Indonesia. Often there is just one puppeteer who makes the puppets move. To move the puppets there are wooden sticks on the puppets' backs.

The theatre is dark and a bright light shines on the puppets to make shadows on a screen behind them. The puppeteer does all the voices. And sometimes there are other people singing or playing instruments.

Hand shadows

You can do shadow theatre at home, using your hands! You will need a white wall and a bright light.

To make a growling tiger:

- Make a 'C' shape with your left hand.
- Put your right hand on top of of your left hand, with your fingers on the back of your hand.
- Lift up your right thumb a little for the tiger's ear.
- Don't forget to make the tiger's mouth move by moving the fingers and thumb on your left hand.

The Ant and the Grasshopper

It was a lovely summer day. The grasshopper was sitting in the sun, playing his violin. An ant walked by, grunting as he carried an enormous piece of corn on his back.

"That corn looks really heavy," said the grasshopper. "Come and play with me instead."

The ant was tired and hot. He pointed at a pile of corn.

"I can't, this will be my food during winter," he said. "There will be less food then, so I must prepare now." The grasshopper laughed.

"Why worry about winter?" he said. "It's summer now and there's plenty of food."

Soon the weather became very cold and the ground was covered with thick snow and ice. The grasshopper tried to dig, but he couldn't find any food.

"Help me, I'm hungry," said the grasshopper to the ant. "Please, can I share your food?"

The ant had lots of food and was kind and generous.

"I will help you this time," said the ant, and he gave the grasshopper some corn.

"But next year I will not help you. You mustn't be lazy and you must prepare for winter!"

1 What do you know about American football?

2 Read.

American Football

American football is very different from European football. But when and how did American football start?

In the 19th century, people played football in England. Like modern football, there were two teams and the players kicked the ball to score goals. Then, one day, a player picked up the ball and ran with it to the goal. It became a new sport and they called it rugby. Both football and rugby spread across to the United States and became popular there. After sometime, the Americans used both these sports to invent American football.

In modern American football there are eleven players on a team. There are sixty minutes of play, but a game can last four hours because they stop the timing when there is no play. The teams use an oval ball and they have to run with it to the other team's goal.

When they get to the goal, they can score a touchdown and get six points. American football players are usually very big and very strong because they have to stop the other team. The game is more dangerous than rugby, so the players wear helmets and special clothes.

Today American football is the United State's most popular sport. The most important games are in the Super Bowl. They play these games in January. Thousands of families in America watch them on TV or at the stadium. Some of the most popular teams are *The New York Giants* and *The Dallas Cowboys*. Every year teams look for new players. The best players become very famous in America.

Usain Bolt

Usain Bolt is a runner. In 2008, he won three gold medals at the Beijing Olympics and people called him the fastest man in the world. This is his story.

Usain Bolt was born in Jamaica on August 21, 1986. He lived in a small town called Trelawny where his parents had a small food shop. He has a brother called Sadeeki and a sister called Sherine. When he was a child, Usain played cricket and football in the street with his brother and sister. He was very good at cricket and wanted to play for the West Indies.

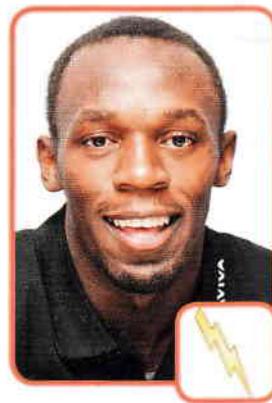

When Usain went to school, he started running. He was one of the best runners in the school. He still played cricket, but even his cricket coach wanted him to be an athlete. So Usain started to run in competitions. He won many races and when he was 15, he won a gold medal and two silver medals at the 2002 World Junior Championships in Kingston, Jamaica.

In 2004, Usain ran in the Olympic Games in Athens. He didn't win a medal because he had an injured leg. But four years later, he ran in the Olympics Games in Beijing, and he was amazing. He won gold medals in the 100m, the 200m and the 4 x 100m relay. He also broke the record in each race! In the 200m, he was 0.52 seconds faster than the man behind! He is the first sportsperson to win all three events at the same Olympics.

So how does he run so fast? Is it because he is so tall? Most athletes are around 182cm tall but Usain Bolt is 196cm tall. He is taller and his legs are longer, so he takes fewer steps.

Fun Facts

Usain Bolt likes dancing and watching football. His favourite team is England's Manchester United. People call him *Lightning Bolt*.

What will life be like in 100 years' time?

Joe, 11

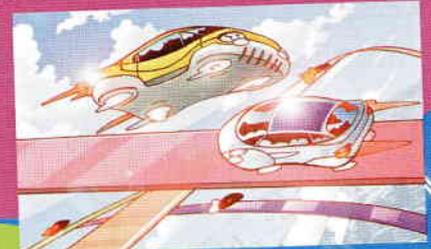

I think robots will do everything for us. They'll do all the dangerous jobs, like firemen's jobs, and all the housework. Robots will listen to us and talk, but they won't have feelings like people. I think robots will help us with our homework, too. That'll be great!

Tom 10

There will be more people on Earth in the future because people will be healthier and there'll be less illness. I think they will get richer, too. More people will buy cars and this means that our roads will be too crowded. So, I think we will have new roads in the sky and our cars will be very different, too. Cars won't use petrol anymore. I think they'll use energy from the sun.

Jess, 10

I sometimes worry about the future. I think it will be hotter and there will be more storms. It will be harder to grow food. Animals like polar bears may become extinct because the snow where they live will melt. There will be a lot more sea and a lot less land. This will make our countries very crowded, especially if people start to live longer.

1 Look at the pictures. What do you know about Finn's holiday?

2 Listen and read.  59

August 20th

14 Hilltop View Road
Oxford

Dear Dan,
How are you?

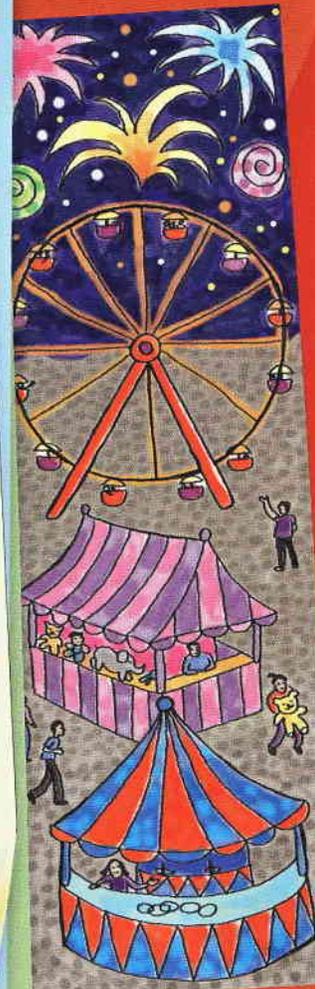

We had a really unusual start to our summer holiday this year. My family and I were on the train to Cornwall. It was a long journey but it was comfortable and we all fell asleep. Suddenly, we heard the train's whistle and we all woke up. "Oh no, it's eight o'clock!" Mum said. "We missed our station!"

We had to get off at the next station. Dad asked the ticket seller the time of the next train back to our station. But he said, "There aren't any more trains today. The next train leaves tomorrow morning. But I can book you into a hotel. Follow me."

On the way to the hotel, I was disappointed because the town seemed small and unexciting. But in the town centre, we saw some fireworks and heard some music. There was a festival and a fair! After we checked in to the hotel, we went and joined the festival. We had a fantastic evening and it was a brilliant start to our holiday!

Write soon to tell me about your holiday.

How are you? I hope you and your family are well! I'm on holiday in Italy at the moment and we're in Rome. It's a really beautiful city.

We arrived last Saturday. It was a long journey, but it was good fun. We left at 4 o'clock in the morning and travelled by car to the airport.

I bought some magazines and some sweets before we got on the plane, so I was happy! Then we took a taxi from the airport to our hotel.

Our hotel is in the city centre. It's a very old building, but it's comfortable. There are lots of old buildings in Rome because it's an ancient city. Yesterday we went to the Coliseum. Do you know what that is? Well, it's an ancient theatre and the Ancient Romans built it 2000 years ago. People went there to watch games and sport. We walked round the Coliseum with our guide and I learnt a lot about the Ancient Romans. It was very interesting.

This morning we went to the National Museum. We didn't see all of it because it's enormous. We saw lots of statues and things from Ancient Rome. Then, we had a drink in the café and then we went to the shop. I bought some postcards, my mum and dad bought a book about Italian art and my little sister bought a badge!

After we left the museum, we went to a restaurant and had a pizza. There are lots of fantastic restaurants here and the food is brilliant! We have pasta or pizza and Italian ice cream every day. We always sit outside because the weather is very hot. My favourite pizza is called *Quattro Formaggi*. This means pizza with four kinds of cheese!

Write soon and tell me about your holiday.

Are you at the beach? Are you having fun?

From,

Joe

Gulliver's Travels

A voyage to Lilliput

My name is Gulliver and when I was a young man, I went travelling. I joined a ship and sailed to the islands of the South Pacific. It was a brilliant voyage at first. We sailed across the Atlantic Ocean and the Indian Ocean. But one day there was a terrible storm and I fell into the water. Finally I swam to an island. I walked on the beach and looked around me. There were no people and no houses. I was very tired, so I fell asleep on the sand.

When I woke up in the morning, I couldn't move. I was lying on my back and my arms and my legs were tied to the ground. I was very hot in the sun and I was frightened. Suddenly I saw a very small man. He was about 15cm tall and he was walking on my leg! Then I saw lots of small men on my arms and my legs. I shouted and, in surprise, the men fell off my body. Then I spoke to them in English. They didn't understand my language, but they saw that I was friendly.

I pointed at my mouth to show I was hungry and they brought me some food. Their food was normal, but it was very, very small. I ate lots of tiny loaves of bread and lots of tiny pieces of cheese and a lot of meat. I finished my meal and then hundreds of men and thousands of horses carried me to their city. It was a very long journey.

When I arrived at the city, I looked around me. The houses were smaller than my feet and I was bigger than the trees. The king and the people were kind to me, so I stayed on the island. I learnt that I was in Lilliput and I learnt their language. I played with their children and I gave them presents such as my watch and some coins. These things were enormous for them. Eventually, I left the city and travelled again.

The Amazing Escape

Ernest Shackleton was a famous explorer. He wanted to explore Antarctica and, in August 1914, he left England. His crew of 28 men sailed on the ship the *Endurance* to the South Atlantic Ocean and then towards Antarctica.

Almost one day's journey from their destination the ship stopped because of the thick ice. So, the crew had to wait on the ship for the ice to melt.

But as the ice melted, the ship started to break. The crew left the ship and camped on the frozen ocean. Eventually the *Endurance* sank. After months of living on the broken ice, the men could sail to land in their lifeboats. They landed on Elephant Island in April 1915. Shackleton decided to find help. He made one of the most dangerous journeys ever, when he tried to return to the island of South Georgia. He and five other men survived storms and waves of 16 metres in one lifeboat. On landing, Shackleton and two men had to climb for 36 hours to find help. It took a further three months to rescue Shackleton's men from Elephant Island, but amazingly all 22 men survived.

Reading

1 Look at the text and pictures below. Say three ways to stay healthy.

2 Listen and read.  87

How to stay healthy

We all want to be fit and healthy, so here are some tips to help.

Take lots of exercise

Watching TV or playing computer games won't make you fit, but playing sports will. You can join a club or play with your friends in a park. If you don't like team sports, you can walk to school, go swimming or try skating instead. Regular exercise makes you feel stronger and gives you more energy.

Eat a healthy diet

Sweets, chocolate and crisps are fun to eat sometimes, but it is not good to eat them every day. These foods contain too much sugar, fat or salt. Make sure you eat vegetables, such as cabbage, with every meal, and plenty of fruit, too. Fruit and vegetables help you stay healthy and grow strong.

Drink lots of water and milk

Water or juices are better for you than fizzy drinks because fizzy drinks contain lots of sugar. Eating a lot of sugar is bad for your teeth. One can of cola contains about nine teaspoons of sugar! Milk is good because it contains lots of calcium. You need calcium to help your 206 bones to grow and keep your teeth strong.

There is this much calcium in a serving of ...

- 1 a glass of milk
- 2 two sardines
- 3 cabbage
- 4 cheese
- 5 yogurt
- 6 beans

3 Underline these words in the text. Guess their meanings and then check them in the Workbook 4 Dictionary.

4 Read again and complete the sentences.

- 1 Walking and skating are types of exercise.
- 2 You should eat _____ with your meal.
- 3 There is a lot of _____ in fizzy drinks.
- 4 _____ has got a lot of calcium.
- 5 Vegetables help you to stay _____.
- 6 Calcium keeps your _____ strong.

Listening

1 Listen and number.  882 Listen again and write *T* (true) or *F* (false).

- 1 Joe feels tired when he gets to school. _____
- 2 Sarah is healthier now. _____
- 3 Ella doesn't like fizzy drinks. _____
- 4 Pete never eats sweets. _____

Speaking

3 What do you do to be healthy? Ask and answer.

- 1 What exercise do you do?
- 2 What healthy food do you eat?
- 3 What do you drink?
- 4 How can you be more healthy?

My Trip to the Rainforest

My name is Maria and I'm on holiday. I'm in a rainforest in Costa Rica with my family. We're staying in a lodge, which is a special house in the rainforest. There are ten people in our group and there are two guides.

This is my diary ...

Thursday 10th September

Today we walked in the rainforest with our guides. Wow! It was fantastic. The trees are really, really tall here. There are a lot of amazing and colourful birds in them. You can hear them singing and making weird sounds! I saw black and yellow toucans and big red and green parrots. I also saw the biggest bird in the rainforest, the *Black Guan*. It's black, but it has a blue face and red legs. We saw a lot of insects, too. I saw some blue beetles with black spots and some beautiful butterflies. There are thousands and thousands of insects in this rainforest. There are more than 100 types of animals, too!

In the evening, we sat next to the campfire. The guides cooked us rice and beans. The food was really nice. We talked about the rainforest and I wrote my diary.

Friday 11th September

Today we got up early. Then we went on small boat on the river *Tenorio*. We saw more birds and also some monkeys in the trees. The monkeys are called howler monkeys. They are big and black or brown. They are also very noisy!

We saw some baby crocodiles, too. There were ten baby crocodiles in a nest. The mother wasn't with them. Adult crocodiles are big and very dangerous, so we didn't stay there long!

In the evening, we had rice and beans again and we ate some fruit. We talked about the crocodiles!

Tomorrow we're going to look at a volcano! It's called *Arenal* and I can't wait!

3 Read again and answer the questions.

- 1 Where is Maria? _____ 2 What can she hear? _____
 3 What does she eat? _____ 4 What's she going to do tomorrow? _____

4 Ask and answer.

- 1 Would you like to go to a rainforest? Why?
 2 Do you know where there are any more rainforests?

1 Describe the picture. What do you know about deserts?

2 Read.

Life in the Desert

What is a desert?

There are different kinds of deserts. There are hot deserts and there are cold deserts. The Sahara Desert is the biggest hot desert in the world. The Gobi Desert is always very cold. Some deserts are sandy. Some deserts are rocky. Other deserts have mountains. Antarctica is the coldest place in the world, but it is a desert and it is covered in snow and ice.

What is the weather like in the desert?

A desert is a very dry place. It has very little rain. It snows in Antarctica, but it does not often rain. In hot deserts, it is very hot during the day and then very cold at night. When it rains, it rains suddenly. But there is very little water in the desert. Sometimes you can find water in rocks underground. These places are called oases.

It can be very windy in the desert, too. There can be sandstorms or snowstorms. In sandy deserts, the wind blows the sand and makes big shapes like mountains. These shapes are called sand dunes.

What plants and animals live in hot deserts?

Plants and animals need water to survive. The desert is very dry but amazingly, there are many plants in the desert. There are also many animals, insects and birds. How do they survive?

Some plants, like cacti, keep rain water in their leaves for a long time. Other plants have long roots. The roots take water from deep under the ground.

Some animals in the desert never drink. They get water from seeds and plants. Many animals are nocturnal. This means they sleep during the hot day and come out at night. Some animals live underground for most of the time because it is colder.

People often travel in the desert on camels. These animals can drink a lot of water very quickly and then they do not need to drink for a very long time. They are perfect in the desert!

3 Read again and write *T* (true) or *F* (false).

- 1 It is always hot in the desert. _____
- 2 It never rains in the desert. _____
- 3 Animals and plants live in the desert. _____
- 4 Some animals don't need water. _____

4 Ask and answer.

Child Heroes

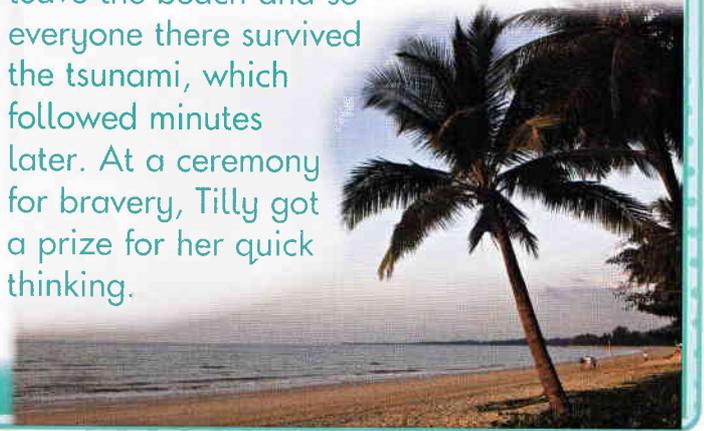

Boy rescues two classmates

A very strong earthquake hit China on May 12th, 2008. Lin Hao, a ten year old pupil, was very brave when his school collapsed in the earthquake. After climbing out of his destroyed school, he pulled out two of his classmates. Lin's arm hurt a lot, but he still carried them to safety. Because Lin was a hero of the earthquake, he carried the Chinese flag in the opening ceremony of the Olympic Games in August 2008.

Girl sees tsunami

Tilly Smith, from England, was on holiday with her family in Thailand in 2004. At the beach, Tilly saw lots of white bubbles in the sea and then the sea started to disappear. These events were something that Tilly had learnt about in a school lesson. She knew that there was an underwater earthquake called a tsunami and giant waves would soon crash onto the shore. Tilly told people to leave the beach and so everyone there survived the tsunami, which followed minutes later. At a ceremony for bravery, Tilly got a prize for her quick thinking.

My relatives are coming!

We're getting ready
For a really special day.
My relatives are arriving
And this is where they'll stay.

My aunt and my uncle
And my cousins Bill and Kate
Will be here for a week,
And I just can't wait.

My cousin Bill's a toddler
Who has just turned two.
He likes to scream and shout,
Just like normal toddlers do.

But he's really fun and cute
And he's learning to be good,
And I'm going to help him
Do all the things he should.

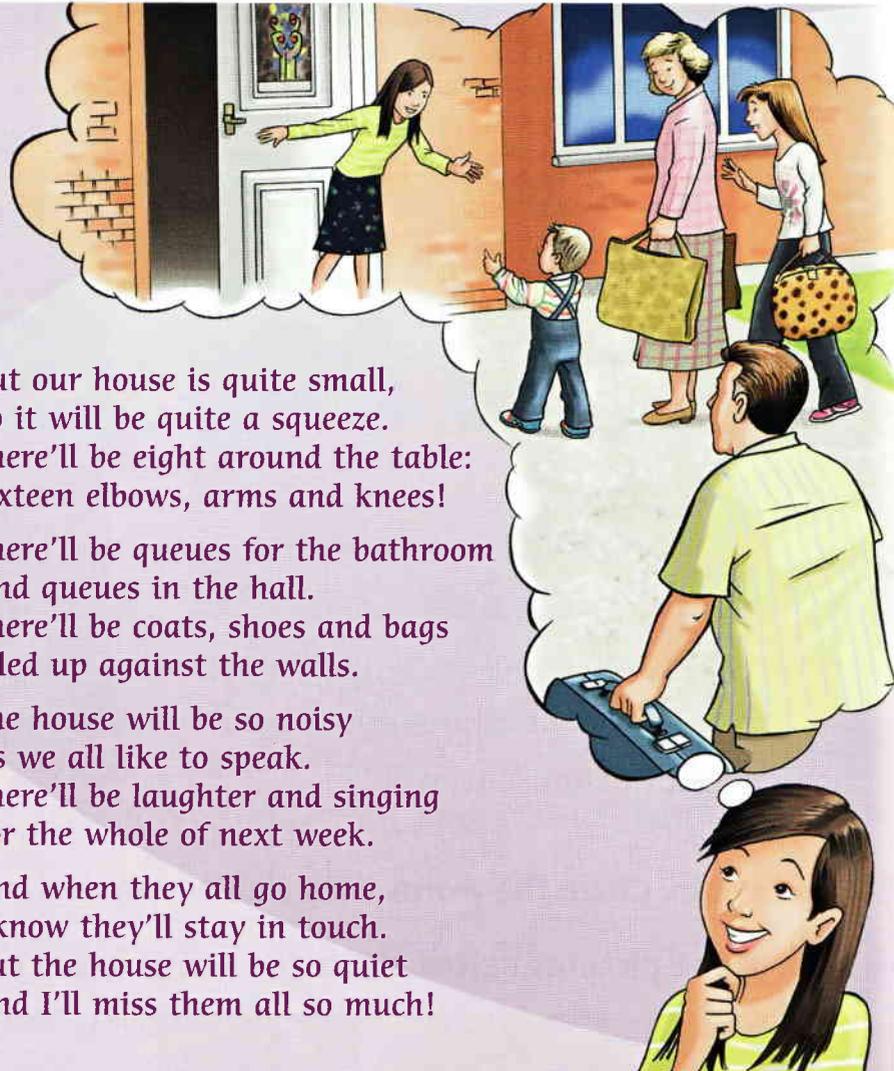

Kate will sleep in my room
On some cushions on the floor,
Aunt and Uncle in the lounge,
On a camp bed by the door.

But our house is quite small,
So it will be quite a squeeze.
There'll be eight around the table:
Sixteen elbows, arms and knees!

There'll be queues for the bathroom
And queues in the hall.
There'll be coats, shoes and bags
Piled up against the walls.

The house will be so noisy
As we all like to speak.
There'll be laughter and singing
For the whole of next week.

And when they all go home,
I know they'll stay in touch.
But the house will be so quiet
And I'll miss them all so much!

Three Wishes

Once upon a time there was a poor fisherman. The fisherman's wife was usually angry because he didn't catch many fish. One day, the man was fishing when suddenly a little fish jumped into his net. "My wife will be happy now," said the man, "we will eat this fish for dinner."

But then the fish spoke. "Please throw me back in the sea," it said, "and I will give you three wishes."

The fisherman was very surprised. "Great!" he thought. "I can make my wife very happy with three wishes."

Later, he told his wife about the fish. She wasn't happy.

"Fish don't speak, you silly man!" she said. "And now there isn't any fish for dinner." The fisherman was hungry and he looked at his dinner of bread and water.

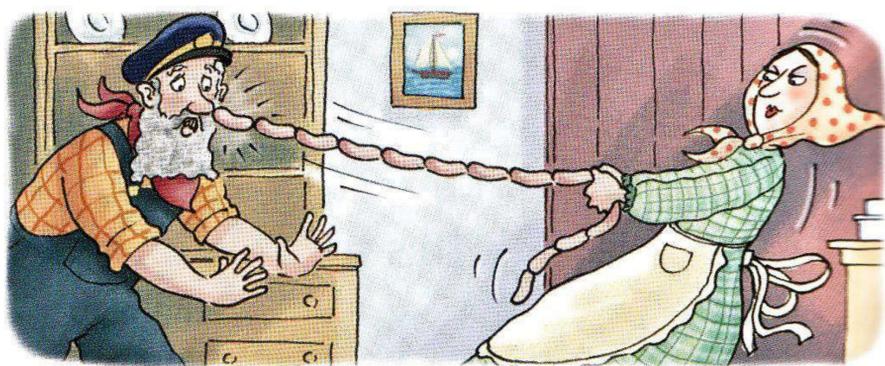

"I wish we had sausages instead of bread and water," he said.

Suddenly, three delicious sausages appeared on his plate. He was very happy and started to eat.

But his wife shouted angrily, "Why didn't you wish for something better, like money or gold? You silly man! I wish those sausages were on the end of your nose!" The man looked down at his nose and screamed. All the sausages were on the end of his nose.

The wife pulled and pulled, but she couldn't get the sausages off the man's nose. They had to use their last wish. "I wish," said the fisherman sadly, "for the sausages to go away." Suddenly, the sausages disappeared.

Now they had no sausages and no wishes. And the fisherman never saw the fish again.

Gold Treasures

Thousands of years ago people discovered gold in rivers. They learnt to make plates, cups and jewellery from this precious metal. There was a lot of gold in places around the Red Sea. Egypt was one of these places. In ancient times, the Egyptians buried their kings in tombs. They buried jewels and gold objects in the tombs along with their dead kings. The gold mask of *Tutankhamen* is a famous object from Ancient Egypt. It was not until 1922 that people found this mask in King *Tutankhamen's* tomb. The mask is now in the Gold Room at the Egyptian Museum, in Cairo.

The Inca people lived thousands of years ago in the Andes Mountains of South America. They were very clever people and built cities and roads. They also had a lot of gold which they found in rivers in the mountains. The Inca people made many beautiful things from gold. They made beautiful statues, masks, and jewellery. Today these things are in museums around the world. Some people think there is more Inca gold in the mountains of South America. Some people even think there is a lost city which is full of gold.

There is a place in South Africa called *Mapungubwe*. A thousand years ago, this place was a city. The people in the city had a lot of gold which they found in a river called *Shashe River*. In 1933, people found many things on top of a hill in this area. They found gold pots and gold jewellery and also a beautiful gold rhino. The rhino is about 12cm long and 6cm high and is about 800 years old. Today it is in a museum in South Africa. There is also a big model of the rhino in a South African city. This model is not gold. It is painted gold.

Long ago, in Ancient Greece, there was a king named Midas. He lived in an enormous palace with his wife and his daughter. King Midas was very, very rich. He had more gold than any other king in the world. His palace was full of gold statues, gold jewellery and gold coins, but Midas was greedy and he always wanted more.

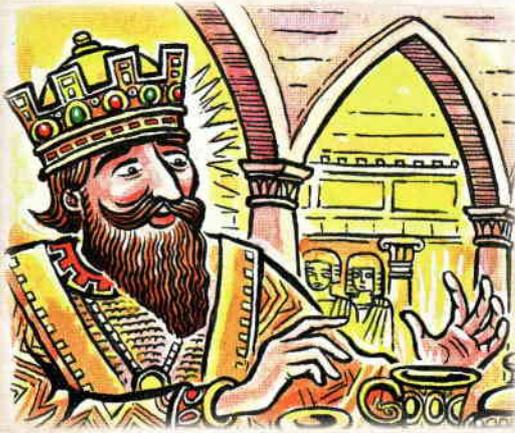

One day, the king was walking in the garden of his palace with his daughter. She was picking yellow flowers for her room. "Those yellow flowers are very beautiful," King Midas said, "but gold flowers are more beautiful."

The king's daughter ran back into the palace with her flowers and the king walked alone. Then Midas made a wish. He wished that everything he touched became gold. Soon he touched a flower. It became gold. He touched a tree and it became gold. He touched a plant and it too was gold. "My wish has come true!" he shouted.

The king touched many things in his garden and in his palace. He touched pictures and vases and plates and they all became gold. Soon Midas was hungry and thirsty. But, when he put some bread in his mouth, it turned to gold. And when he put some water to his lips, it also turned to gold.

The king sat in his garden. "I have all the gold in the world," he thought, "but I cannot eat and I cannot drink. What shall I do?"

At last, the king's daughter saw her father in the garden. She ran to him because he looked so sad. She touched his hand and suddenly she became gold, too. King Midas made another wish. He wished that he could have his daughter back and he wished to not have any more gold. Suddenly, all the gold was gone and his daughter was playing happily in the garden. King Midas had learnt his lesson and he never asked for more gold again.

My Family and other Animals

When Gerald Durrell was ten years old, he lived with his family in England. His father was dead, but he lived with his mother, his older brothers, Larry and Leslie, and his older sister Margo. The family lived by the sea, but they didn't like the cold weather in England. One cold and rainy day in August 1935, they decided to go and live in a hotter place. They travelled to Corfu which is an island in Greece. They lived in a big, pink house on a hill. It had a lovely garden and they were very happy there.

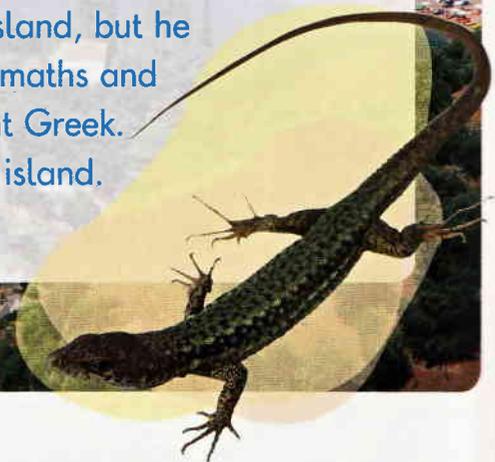

While Gerald was living on the island, he learnt a lot about animals. He enjoyed watching the insects and the lizards in their garden. He explored the island and learnt about the fish, the birds and the plants. He liked spiders and snakes and even had some as pets, and he put them in a special room in the house. In this room Gerald kept books about plants and animals, as well as his collections of birds' eggs and insects in jars. Gerald didn't go to school on the island, but he had lessons with a teacher from England. He learnt French, maths and geography. He met many people on the island and he learnt Greek. He also started to write a book about his adventures on the island. This is one of his most exciting adventures.

3 Read again and write *T* (true) or *F* (false).

- 1 Gerald moves to Corfu when he is ten years old. _____
- 2 Gerald doesn't have lessons. _____
- 3 The family have a boat. _____
- 4 Gerald and his family swim with the porpoises. _____

4 Ask and answer.

- 1 Would you like to swim with porpoises? Why?
- 2 Do you enjoy learning about animals? Why?

We were very happy on the island. In the summer, the days were long and hot and the island was very beautiful. There were green olive trees; bright orange trees and yellow grapes on the vines. In the mornings, we ate our breakfast in the garden and talked and laughed together. In the afternoon, I walked in the garden and watched the butterflies and the ladybirds. I learnt about the summer insects, the animals and the flowers. Then I did my lessons. That summer I had a new teacher from England. His name was Peter and I liked him very much. He was very clever and very kind and he told me lots of interesting things. As well as doing our lessons, we walked around the island and talked about the things we saw. Then I wrote about these things and Peter read my work. Soon I started to write a book. It was a story about my family, our life on the island and lots of animals.

The summer nights were very hot and the sea was warm and dark. We often went swimming at night because it was so hot on the beach in the sun. We travelled out to sea in our little boat and my brothers and my sister rowed. I sat at the front and shouted "Look out!" when I saw any rocks.

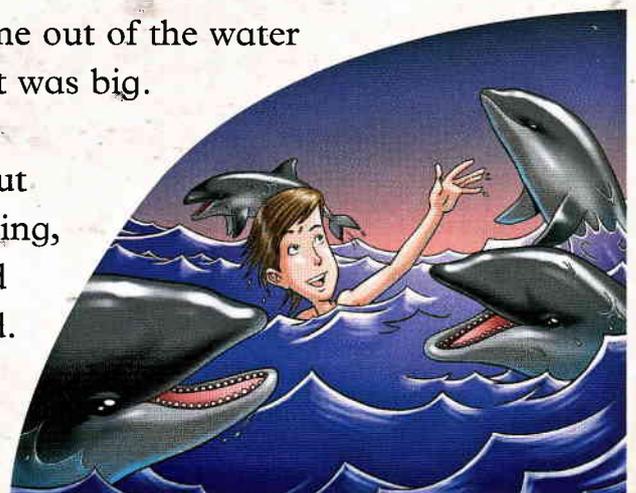

When we stopped the boat, we went swimming in the warm sea and then we went back to the beach. We sat on the warm rocks, looked at the stars and talked about our brilliant life on the island.

One day, I left my family on the rocks and went back into the sea. It was lovely and warm in the water. I swam and lay on my back and looked at the lovely, white moon. My family were very noisy. They were laughing and talking on the sand. I listened to them and felt very happy.

Suddenly, there was something in the water. It was swimming very close to me! Was it an animal? What kind of animal was it? I was worried and I wanted to shout for help. But then I saw the animal. It came out of the water and then it went under again. It was dark and it was big.

I looked again and saw it was a porpoise. Then I looked around more carefully. There were about eight of them in the water with me. It was amazing, I was swimming with porpoises! They swam and played and jumped in the water while I watched.

Eventually, they turned and swam away. I swam back to my family on the sand and told them about my special adventure.
