## Reading

1 Look at the story. Choose the best title. Write the title at the top.

- a) A lovely day on the river    b) An adventure on the river    c) A storm at sea

**I**t was a summer morning. The river was calm. The clouds in the sky were light, like smoke.

"I want to go out in the boat," said Jack.

"Ok, let's go!" said Harry.

After half an hour on the river, Jack stopped rowing. The boat floated quietly on the water. The sun was warm, and Jack and Harry soon fell asleep with the sun on their faces. They slept for a long time.

When they woke up, the sky was dark. There were storm clouds above them. A flash of lightning lit the sky.

"A storm is coming!" Harry said nervously. And very soon, the wind started to get stronger and stronger. Waves hit the boat with a splash and heavy rain started to fall. Jack was rowing when he dropped the oars by accident and they floated away. Without the oars, the boys couldn't row. They didn't know what to do.

Then, a big wave hit the side of the boat.

The boat turned over and Jack and Harry were thrown into the water.

"Grab the boat!" Jack shouted. They held on tightly to the boat as the water carried them along.

At last, the boat hit some rocks near the river bank. The boys felt the ground under their feet and slowly they got to the bank. When they looked back, their boat was gone.

"Where are we?" Jack asked. "Will someone rescue us?"

Then they saw some smoke from behind the trees. "Maybe it's a house!" Harry said. They walked along the path between the trees – and stared in surprise.

2 Read again and number the pictures in the correct order.

1 Look at the article. What is Henry doing? Tick (✓) the correct answer.

a) He's studying at university. ☐

b) He's working as a diving instructor. ☐

c) He's working for an environmental group. ☐

d) He's on holiday. ☐

18-year-old Henry Watson is a volunteer with an environmental group called EcoTask. EcoTask is an organization that helps to protect the environment.

People with different skills volunteer to work for them and EcoTask has lots of interesting ways for volunteers to help the environment. Henry Watson is a talented diver and he is using his skills to help protect wildlife under the sea.

Henry is spending three months at an EcoTask centre on the Red Sea. The centre provides all the diving equipment he needs and also gives training to people to teach them what to do.

Henry works in a team with 15 other volunteers. He dives into the sea and records what he sees. He writes down the different types of fish and other sea animals he sees, and he reports any problems, for example, plants that are dying. He also tests the water for pollution to check if the water might damage the health

of the wildlife that live in the water. This is very important.

"I wanted to do something different before I go to university. I've always loved diving and I want to help the environment, so this project is perfect for me," Henry says. "The underwater life in the Red Sea is amazing and it's very important to protect it. Our research helps to do this."

He would like to stay in Egypt when the three months finish. "The best volunteer in each group can stay and work here for another two months," he says. "I hope it's me! I'd really like to stay here longer!"

2 Read again and write *True* or *False*.

1 Henry is working as a volunteer for EcoTask.

True

2 Henry is very good at diving.

3 Divers at EcoTask have to bring their own diving equipment.

4 Henry works in a team with 14 other volunteers.

5 He studies the wildlife in the Red Sea.

6 He doesn't want to go to university.

7 He joined the EcoTask project to get a lot of money.

8 He wants to stay in Egypt for five months altogether.

Last year, I went on an adventure holiday with my school. On the first day we went

<sup>1</sup> rock climbing in the mountains. The instructor showed us all the

<sup>2</sup> eq and how to use it. Then, I did my first climb. It was great!

The next day, some kids stayed at the centre and played <sup>3</sup> baseball in the sports field, but the rest of us went to the ice rink for <sup>4</sup> icesk. I fell over six times! I didn't <sup>5</sup> dislike ice skating but I wasn't very good at it!

On the last day, we went to the beach to try <sup>6</sup> snorkelling. I really loved it even though I'm quite an <sup>7</sup> inexper, inced swimmer.

I saw a lot of <sup>8</sup> wildlife that lives under the sea. There were different kinds of fish and even a seahorse! Later, our instructor gave us a talk about how we can protect wildlife and look after the <sup>9</sup> environment.

1 Look at the leaflet. Choose the best title. Write the title at the top.

- a) How to cook with chillies!    b) Celebrating the chilli!    c) Decorations with chillies!

Every year in late August or early September, there is a special festival in a little town called Hatch, in New Mexico, USA. The festival lasts for one weekend, and it celebrates chilli peppers, the most famous food from this area. Farmers grow chillies in the local area and in late August or early September, the chillies are ready to be picked and eaten! Then, everyone gets together and celebrates the chilli!

You'll know when you get close to Hatch, because you'll smell the chillies cooking over fires. People eat chillies with everything! They eat them with meat, with vegetables and even with chocolate! Chilli chocolate

is delicious! In town there are chillies everywhere in different colours, shapes and sizes. People decorate the buildings with chillies. They hang big bunches outside their houses. Some people even cover their walls and roofs with chillies!

Visitors come to the festival from all over the USA, so it's best to arrive early. There are music groups and traditional dances, and you can also watch cooking demonstrations which show you how to make dishes with chillies. On both days there are competitions. For example, there is a prize every year for the person who can eat the most chillies, and another prize for tying chillies into the biggest bunch. Come to the festival! It's great fun!

## Reading

1 Look at the text. Choose the best title. Write the title at the top.

- a) Across the desert by camel   b) A drive across the desert   c) The camel doctors

The desert is one of the most difficult environments in the world to travel through. The sand dunes are difficult to climb and in the daytime, the sun is bright and the temperatures are very high. You can travel for many days and weeks without finding any water or food.

Long before cars, people used camels to cross the desert. Camels are ideal desert animals. They can carry heavy loads of up to 450 kilograms and they can walk for days without water. When they find water, they can drink up to 100 litres of water in ten minutes! Camels can eat almost any plant they find in the desert. Their milk is very good to drink and it is full of vitamins and so people travelling in the desert can drink the camel's milk and stay healthy. Camels were used to bring packages of food and other supplies to faraway

villages. Sometimes, camels were used by people who wanted to sell goods in different places. In more recent times, they carried equipment for building railways.

Today, we have 4 x 4 vehicles which can travel over the sand, but cars sometimes break down in the hot temperatures. This can be very dangerous as you can be miles from a village with no transport! Camels can travel long distances to places which have no roads or railways to connect them to other towns. In Mali, in Africa, camels carry blocks of salt for 800 kilometres over high sand dunes to Timbuktu, where they are sold. In other places, camels take important medicines to desert villages. Life in the desert would be much more difficult without camels!

2 Read again and write *True* or *False*.

The first hot-air balloon was invented by two French brothers, Joseph and Etienne Montgolfier. They got the idea when they found that hot air from a fire made a paper bag rise into the air.

In September 1783, the brothers made a big balloon from cloth and paper. They made a fire under it. They thought it might be dangerous to go up in it themselves, so the first passengers were a duck, a sheep and a chicken!

In November that year, two friends of the Montgolfier brothers went up in a similar balloon. The balloon rose to 150 metres and floated for nine kilometres over the city of Paris – and it came down safely.

## Reading

1 Look at the pictures and tick (✓) two things a pencil has inside it. Read and check.

- a) graphite ☐ b) ink ☐ c) clay ☐ d) stone ☐

## The pencil

We all have pencils in our schoolbags and in our homes, but do you know how they are made? •

A pencil is usually made of wood, with pencil lead inside. Pencil lead is a black material. It is made with graphite which is mixed with clay. This mixture is pressed into thin rods to form the centre of the pencil. The thin rod is the part of the pencil that leaves marks on the paper when we write. The wooden part outside this is the part that we hold. We need the wooden part so the pencil lead doesn't break and so our hands don't get black when we write!

People first discovered the use of graphite for writing in the 16th century. Early pencils from this time were just pieces of graphite wrapped in sheepskin or string. Then, in the 18th century,

the pencil was changed. A hollow space was made in a piece of wood, then a rod of lead was put in, and then another piece of wood was glued on top. After that, the pencil was cut to a sharp point at one end. So pencils don't need to have a nib in them like pens do.

Today, wooden pencils are made by machines in factories. Pencils are also made of plastic or metal, and they sometimes have cartridges filled with lead. There are even pencils with different colours! There are also pencils that can write underwater!

Pencils are used all around the world. More than 14 billion pencils are made in the world every year. That's enough to go all the way around the Earth 62 times!

The market for mobile phones

Mobile phones today  
~~The first mobile phone call~~

## The history of mobile phones

### 1 The first mobile phone call

On 3rd April 1973, Martin Cooper from the Motorola company talked on his mobile phone as he walked through the streets of New York. People watched with excitement and amazement. At that time, even normal phones were attached by wires and cords and people had never seen anything like it before! It was the world's first mobile phone call. The phone weighed 850 grams! It was very heavy! Now, mobile phones weigh about 130 grams!

2

In the 1970s, mobile phone technology was still experimental. Mobiles weren't available to the public until 1983, when the DynaTAC 8000X was created. It was huge – 32 cm long and 9 cm wide! It took ten hours to charge the battery and you could only talk for 30 minutes. It was also expensive. The phone cost \$3,995! Only very rich people could buy one!

3

Martin Cooper had a dream of people taking their phones with them, and being able to communicate wherever they were. However, in the early days, nobody knew if mobile phones would be popular. One company said they expected a world market of 900,000 by the end of the year 2000. They were wrong! By that time, mobiles were cheap enough for ordinary people to buy. They were also much smaller and looked much better than the DynaTAC! Millions of people were using them.

4

Mobile phones have changed a lot since the 1980s. We can use them to take photos, watch videos, surf the Internet and do many other things. Today, there are billions of mobile phones in the world. Life would be very different without mobile phones – they have changed the world!

## Fun facts

- A text message is also called an SMS. This is short for 'Short Message Service'!
- Texts in English can be 160 characters long. Characters means the letters, spaces and punctuation. In other languages, there are usually less characters because each letter takes up more space.

## Quotes

- Alex Brenner worked for a mobile phone company in the 1990s. He said "No one believed text messages would become popular. We were all wrong!"

## Text abbreviations

## Egypt's lost treasures

Herakleion was once a very important harbour city. It was the main entrance into Egypt from the sea before the city of Alexandria was built in 331 BC. But at some point in the 8th century, Herakleion disappeared. We don't know exactly, what happened. Scientists think that an earthquake caused the land to drop to the bottom of the sea. The city went with it and sank into the sea where it stayed for more than 1,000 years.

Until the year 2000, people only knew about Herakleion from old books and stories. Then the French archaeologist Franck Goddio began to search in the Bay of Abu Qir. Then, after a two-year search, Goddio's team of divers found the ruins of an underwater city. They found it six kilometres from the land and about eight metres under the sea. Clues in the writing on a stone from 380 BC showed that it came from a city called Herakleion.

The city was not changed much by the time it spent underwater. Divers found the harbour of the city and the walls of many buildings, including the biggest temple in Herakleion. They brought

up hundreds of valuable objects which are over 2,000 years old including sculptures, pots, coins and jewellery. They also discovered more than 20 shipwrecks, some of them from the 5th century BC.

Exploration is continuing, and archaeologists are sure there are many more exciting discoveries to be made in this ancient underwater city and that the lost city contains many more secrets about the past. One historian said "We have learnt so much in just one year." Historians hope to learn much more about how people lived in this ancient and almost forgotten city.

## Reading

1 Look at the text. How many statues are on the island? Tick (✓) the correct answer.

- a) 3,500 ☐    b) 150 ☐    c) 800 ☐

In this interview, Amy Green talks about Easter Island.

### Where is Easter Island?

Easter Island is in the South Pacific Ocean, 3,500 kilometres from Chile. People live on the island today but it is difficult to live there as it is so far away from anywhere else. Easter Island is made from three volcanoes, but these don't erupt any more. The last time the volcanoes erupted was over 100,000 years ago.

### Why is the island famous?

The island is famous for its mysterious stone figures. These are known as 'Maui'. These statues are between three and twelve metres tall and there is a platform underneath. Today, there are more than 800 statues on the island, but in the past there were more. Some have been destroyed and others are now under the soil.

### Why were the statues made?

No one really knows as there is no written information about them. However, many historians think that they are figures of important people or leaders from the island. Most of the statues are on the coast of the island and stand with their backs to the sea. The statues were made over a period of 1,000 years. Historians think the oldest statues were made in about 1000 AD.

### How were the statues made?

They were made in the quarry from soft volcanic stone. Then, historians think that people moved them on wooden rails. However, 150–180 people were needed to move each statue and some statues were moved more than 22 kilometres! One third of the statues were not moved from the quarry and are still there today.

### Are there any other mysterious things on the island?

Yes, there are stones with ancient carvings, sketches and writing on them. However, there isn't anyone who can read the writing and so we can only guess at the meaning.

2 Read again and circle.

- 1 Easter Island is in the South Pacific / Atlantic Ocean.

- a) an accident in the mountains ☐ b) surviving after a shipwreck ☐ c) a holiday adventure ☐

## Island Adventure

*Island Adventure* is a book about a group of survivors on a desert island!

The main character in the story is a 14-year-old boy called Robert Wilson. At the beginning of the story, he lives in New Zealand with his family. But when his parents die in a mountain climbing accident, Robert is suddenly alone. He decides to leave New Zealand and go to America where his aunt lives. She is the only family he has left.

Robert finds a ship that is sailing to America but he doesn't have any money. So, he has to work with the crew on the ship that is sailing to America in return for his ticket. It is a long and difficult voyage. There are storms and rough seas. The wind pushes the ship in a different direction and the ship gets lost. Finally, it is shipwrecked near an island in the middle of the ocean. When the ship sinks, Robert is one of only six survivors who manage to swim to the island.

The year is 1870. So, there aren't any aeroplanes flying over, or boats passing by and there is no one who can find them and rescue them. The six people have to start a new life on the island. They collect wood to make fires. They have no food supplies, but they learn to hunt seals for food and clothing. They cut down trees to build wooden huts for shelter against the wind and rain. But winter is coming, and it is getting colder and colder. The survivors don't know if they can survive the cold weather. But they will do everything they can and fight to survive!

If you like exciting stories, you'll love this book!

1 Look at the text. Write the questions in the correct place.

- a) What are the official languages? b) How have so many languages survived?  
 c) How many languages are spoken in Papua New Guinea? d) Why do people speak English there?  
 e) Where did the languages come from?

### The country of languages!

<sup>1</sup> How many languages are spoken in Papua New Guinea?

Papua New Guinea has a population of just six million people but it has more languages than any other country in the world. Over 800 languages are spoken there. That's over 13% of all the languages in the world!

<sup>2</sup>

The three official languages are Hiri Motu, Tok Pisin and English. For most people these are not their mother tongue, but they can be used to communicate with each other when they talk to someone from a different group.

<sup>3</sup>

English is important as an international language. About 50,000 people speak English as their first language. English is used in schools and businesses. However, many people speak lots of languages.

<sup>4</sup>

The first inhabitants of Papua New Guinea were tribes that arrived from different parts of Asia more than 50,000 years ago. They brought lots of languages with them. Over time the languages they spoke developed into the ones that are spoken in Papua New Guinea today.

<sup>5</sup>

All these languages are still alive because many people live in very isolated places. When different groups first arrived, they lived in different areas because there were high mountains that were difficult to climb and there was rough land that was difficult to travel across. So, tribes didn't mix with other tribes but kept their own culture, traditions and languages separate. Today, only 18% of people live in cities and there still aren't many roads connecting the villages. So, people stay in their own groups and speak their traditional languages. That's why Papua New Guinea's languages have survived.

2 Read again and write *True* or *False*.

- 1 Six million people live in Papua New Guinea.
- 2 There are over 800 official languages.
- 3 Most people have the same mother tongue.

1 Look at the poem. Choose the best title. Write the title at the top.

- a) Dreaming of space    b) My future job    c) The planets

There was once a boy called Jack  
Who liked to watch the stars.  
He dreamed about a spaceship  
Heading off to Mars,  
To Jupiter, Venus and Neptune  
And landing on the moon.

He watched the constellations  
In his dad's observatory,  
And imagined all the wonders  
In space that he would see.  
The Milky Way and Saturn's rings –  
One day he'd visit all these things!

Jack dreamed some lovely dreams  
As he lay all snug in bed.  
The moon glowed through the window,  
Its beams shone round his head.  
A blazing comet travelled by  
And stars like diamonds filled the sky.

At school, all Jack's teachers  
Would shake their heads and say:  
"That boy lives in a dream world,  
Imagining the day  
When he'll launch his spaceship into the blue –  
That's when his dreams will all come true!"

## Ed's blog

It's the end of an exciting day. We were at the beach, looking at sand sculptures, when suddenly we saw an animal in the sea. At first we thought it was a <sup>1</sup>shark / seal but then we <sup>2</sup>realized / remembered it was a dolphin. It had swum too near the shore and the <sup>3</sup>sand / waves had pushed it onto the beach.

Libby and Tom used their water bottles to keep the dolphin <sup>4</sup>cold / wet. Kate and I went to find Fin, and he rang <sup>5</sup>a rescue team / the police. It took time to contact everyone, so it was late when we got back to the beach. Libby and Tom helped the team to <sup>6</sup>push / carry the dolphin back into the sea. Everyone said that we had all saved its life!

cheap expensive basic peaceful luxurious stimulating dull busy

Dear Emma,

This holiday is crazy! The hotel we're staying in now is very <sup>1</sup> basic. My room only has a bed and a cupboard. We planned to stay in a <sup>2</sup> \_\_\_\_\_ hotel with a swimming pool, but when we arrived, there had been a mistake and all the rooms were full.

Mum and Dad were looking forward to relaxing by the sea but it isn't very <sup>3</sup> \_\_\_\_\_ on the beach. There are hundreds of people and the streets near the beach are always <sup>4</sup> \_\_\_\_\_.

But guess what? We're having a great time! We eat at restaurants every day because the food is <sup>5</sup> \_\_\_\_\_. We've been exploring the town and we've seen some amazing buildings. The streets are really <sup>6</sup> \_\_\_\_\_. Who needs to spend lots of money on <sup>7</sup> \_\_\_\_\_ hotels when this is more fun? There's nothing <sup>8</sup> \_\_\_\_\_ about this place!

See you soon, Lily

## My dream trip

*My name's Becky. I love travelling and one day I'd like to go around the world. When I'm older and I've finished school, I will travel around the world for a year! It will be great.*

I read lots of books about different places around the world and I dream about all the places I want to visit. I have already planned where I want to go when I'm older. I know which countries I want to visit and what I want to see when I'm in each one.

First, I'll go to China and walk along part of the Great Wall. What an experience! Did you know that it's 6,400 kilometres long! It's incredible to think about all the people in the past who have walked along that wall.

After China, I'll go to Thailand. I'd like to travel through the busy streets of Bangkok in a rickshaw.

I'll stop at a street market and try the food. I love spicy food and Thai curry is my favourite meal. I like the mixture of sweet and sour flavours.

My next stop will be Borneo. I'm interested in wildlife and Borneo's forests are the home of orang-utans, rhinos and leopards. However, there are some scary animals in the forest too, like snakes and poisonous spiders. So, maybe I won't spend too much time in Borneo!

After Borneo, I'll visit Australia. It's got sun and beaches, so it's the perfect place to relax. My favourite sport is surfing and Australia has some of the best surfing beaches in the world. I could also learn to dive and look at the coral reefs. The water in Australia is very clear, so I could see lots of fish. I wish I was there now! Unfortunately, I have to wait until I'm old enough!
